

Sample Score Chart

Name	Decision-Making Section	Prioritization Section	Emergency Scenario 1	Emergency Scenario 2	Emergency Scenario 3	Personal Average*
User 1	63	59	100	25	0	57.1
User 2	37	59	0	100	75	50.1
User 3	89	73	75	25	0	71.5
User 4	47	41	0	25	25	38.5
User 5	63	59	25	25	50	55.5
User 6	68	59	100	0	50	60.8
User 7	58	50	100	25	50	54.9
User 8	47	59	75	0	25	49.1
User 9	53	55	100	25	25	53.2
User 10	58	68	75	0	25	57.1
User 11	63	59	25	25	50	55.5
User 12	53	77	75	25	0	58.7
User 13	74	73	0	100	75	70.5
User 14	53	59	0	100	50	54.8
User 15	58	64	75	25	75	60.5
Group Average by Section	58.9	60.9	55.0	35.0	38.3	56.5

Features

View your entire cohort's individual scores in each section, their personal averages for the entire assessment and a group average by section in a glance with this chart.

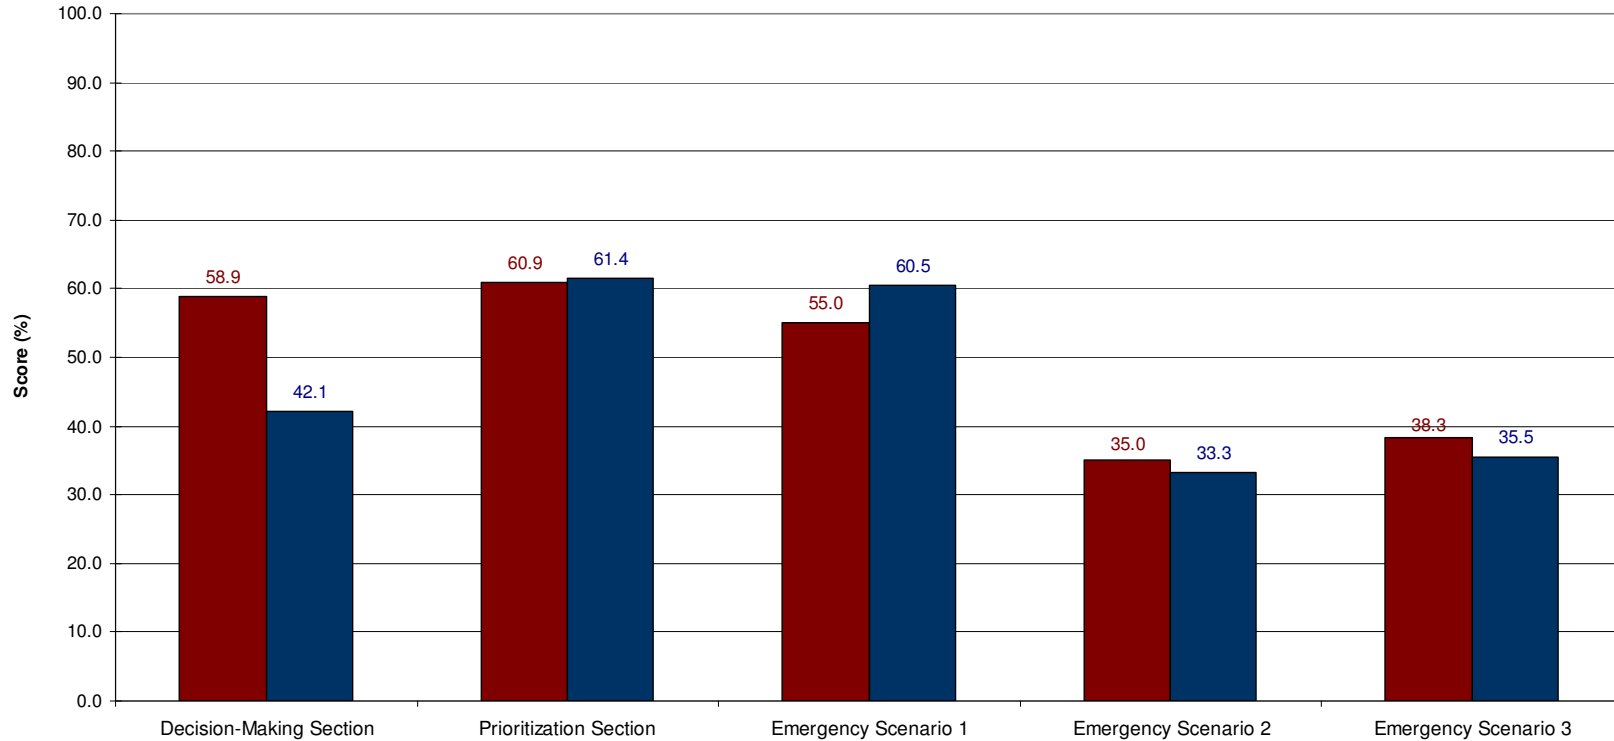

**Personal Average is weighted with the Emergency Scenarios making up 20% of the average*

Benefits

One chart provides a comprehensive reference for your entire cohort's assessment results.

District Name
Date

■ Group Average
■ National Average

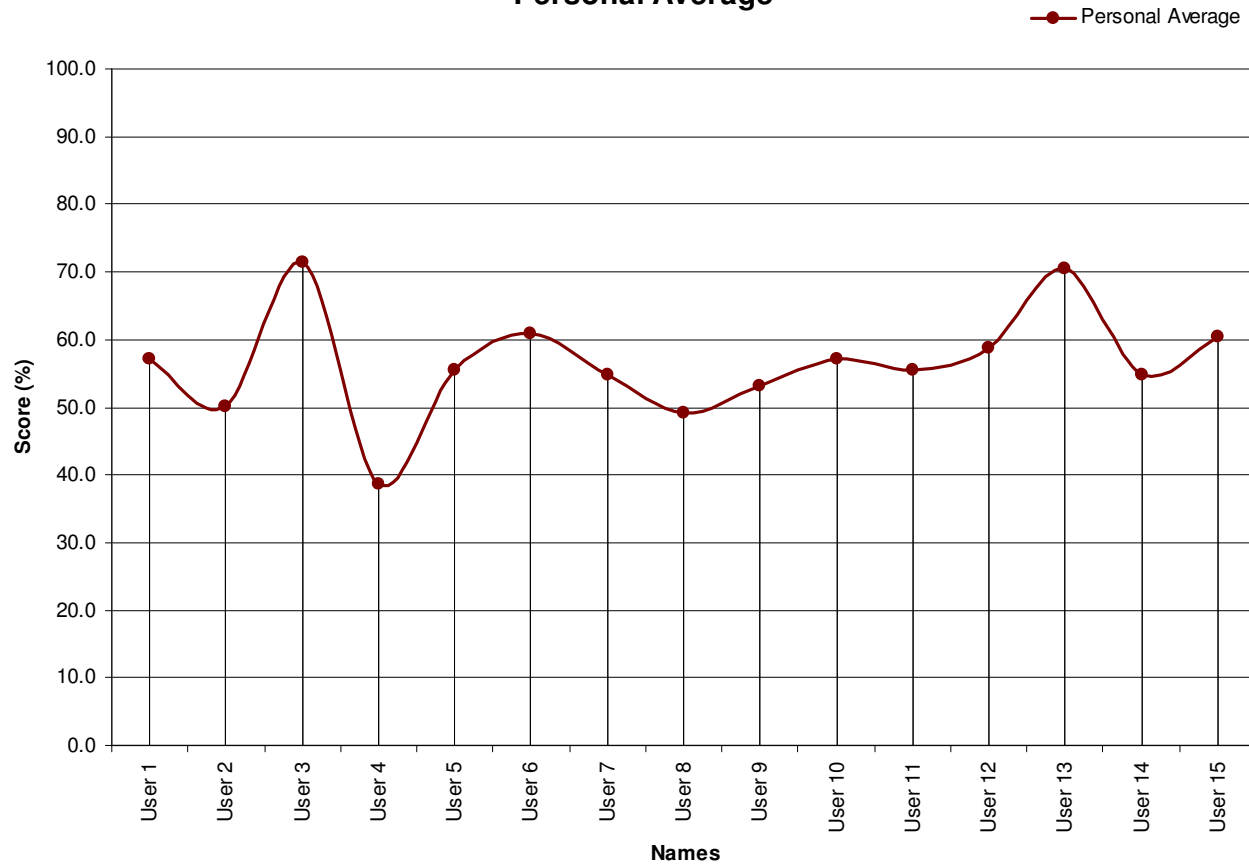

Features

Compare your cohort's average in the decision-making, prioritization and emergency scenario sections with national results.

Benefits

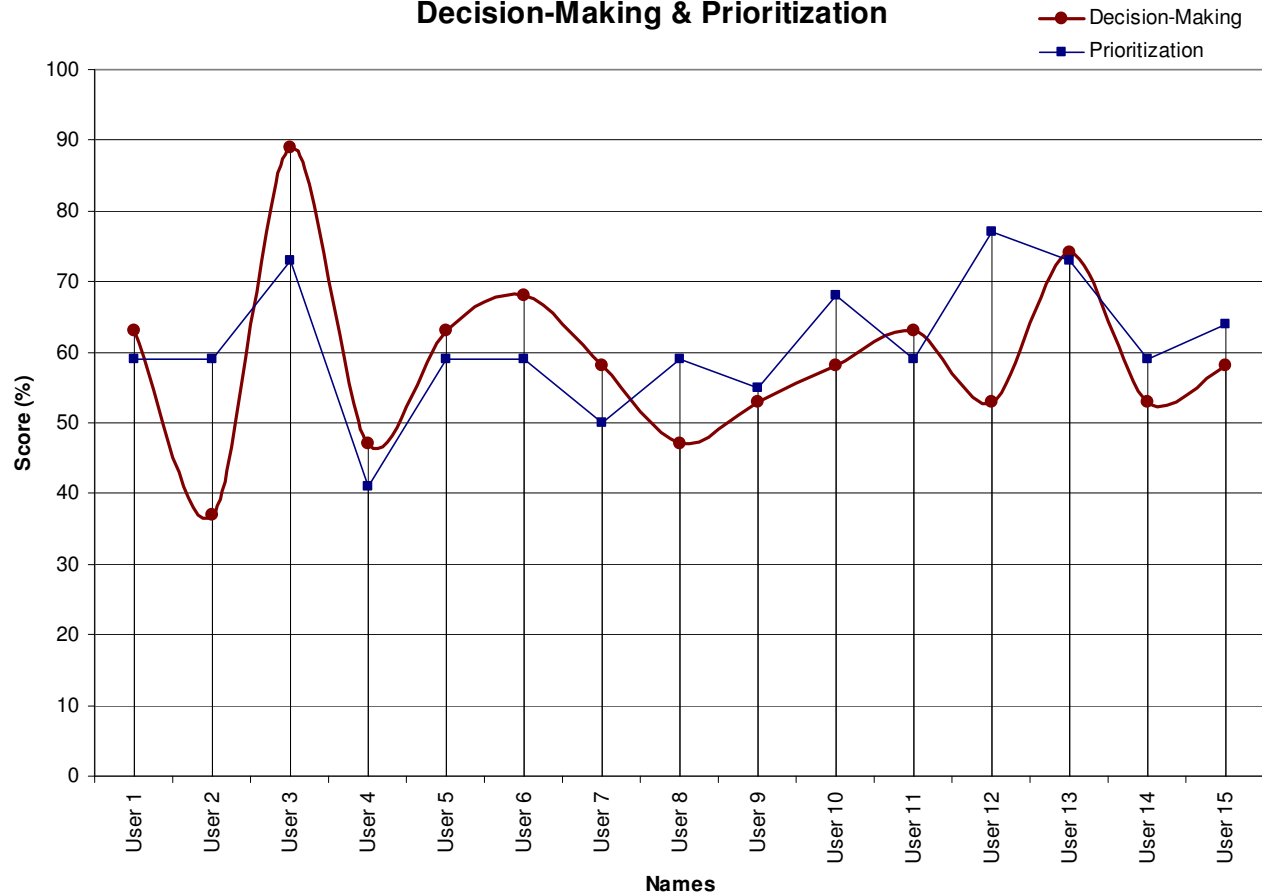

Easy to read graph provides clear comparative results at a glance.

Personal Average

Features	Benefits
View the aggregate average of all assessments for each of your participants at a glance.	Provides instant information about individual results, while offering a comparative view in one easy to read graph.

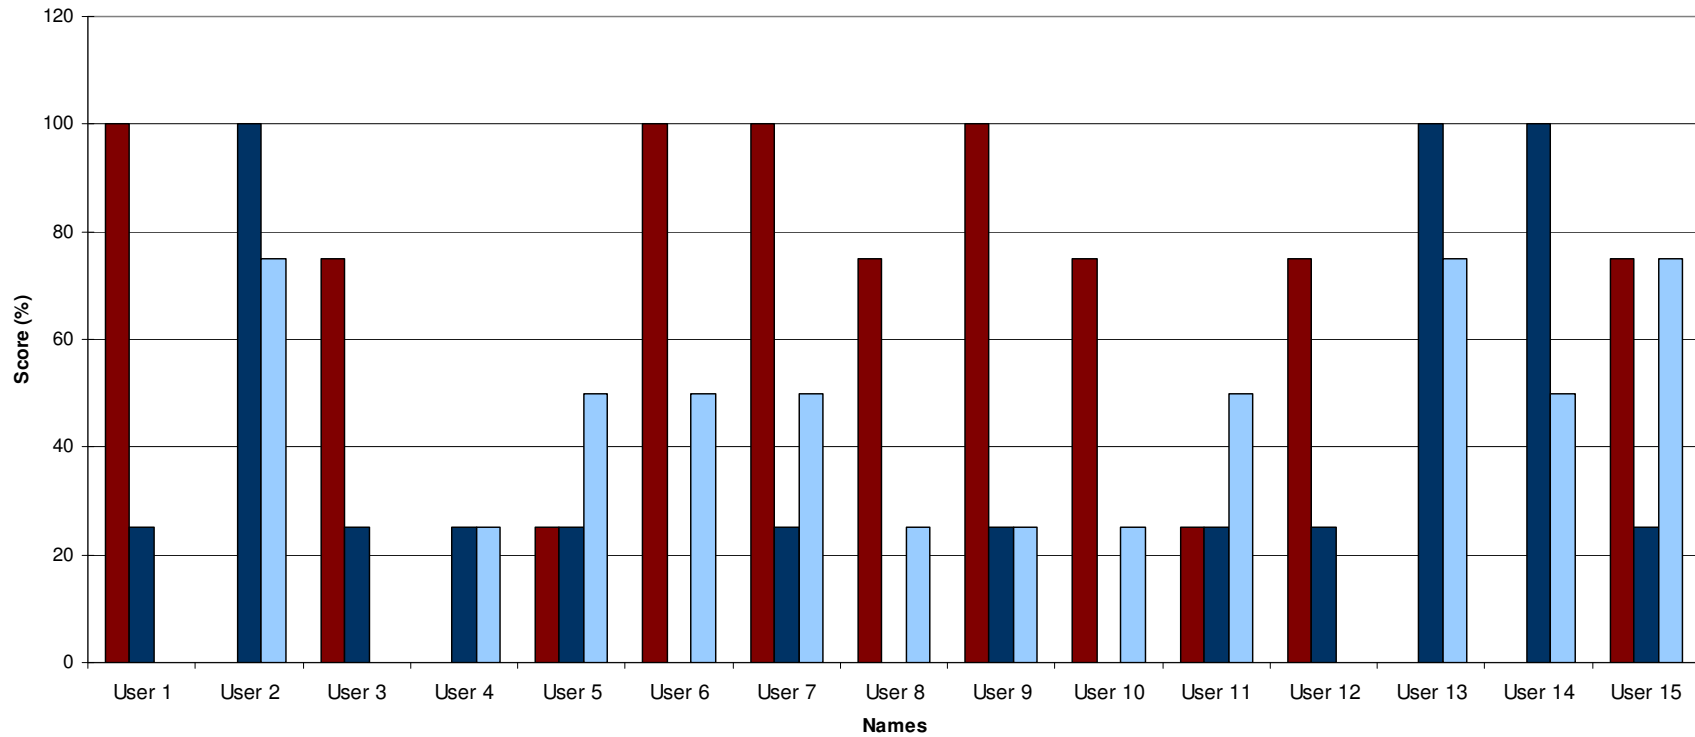

**Personal Results
Decision-Making & Prioritization**

Features	Benefits
View and compare individual results for the decision-making and prioritization assessments for each participant.	Clearly identifies individual and cohort strengths and needs in two vital decision-making areas.

**Personal Results
Emergency Scenarios**

■ Scenario 1
■ Scenario 2
■ Scenario 3

Features

View individual results for each participant on all three emergency scenarios.

Benefits

Provides an “at a glance” reference for individual results in emergency decision-making and prioritization, and allows for comparisons within the cohort.

Sample Time Chart

Name	Written	Decision-Making	Prioritization	Emergency Scenario 1	Emergency Scenario 2	Emergency Scenario 3	Total Personal Time*
User 1	10	15	12	18	19	10	84
User 2	12	8	12	20	22	9	83
User 3	10	11	15	25	24	7	92
User 4	11	12	14	22	25	8	92
User 5	13	14	13	20	21	11	92
User 6	14	15	15	21	24	9	98
User 7	17	17	12	24	22	10	102
User 8	9	9	13	20	25	7	83
User 9	15	10	15	21	20	8	89
User 10	12	12	15	24	21	11	95
User 11	17	18	11	23	22	9	100
User 12	18	15	11	20	23	8	95
User 13	10	13	14	25	24	10	96
User 14	11	14	15	21	20	9	90
User 15	12	15	10	19	25	8	89
Total Group Time Average	12.7	13.2	13.1	21.5	22.5	8.9	92.0

Features

View individual user time for each component, total individual time and group averages for each section of the assessment.

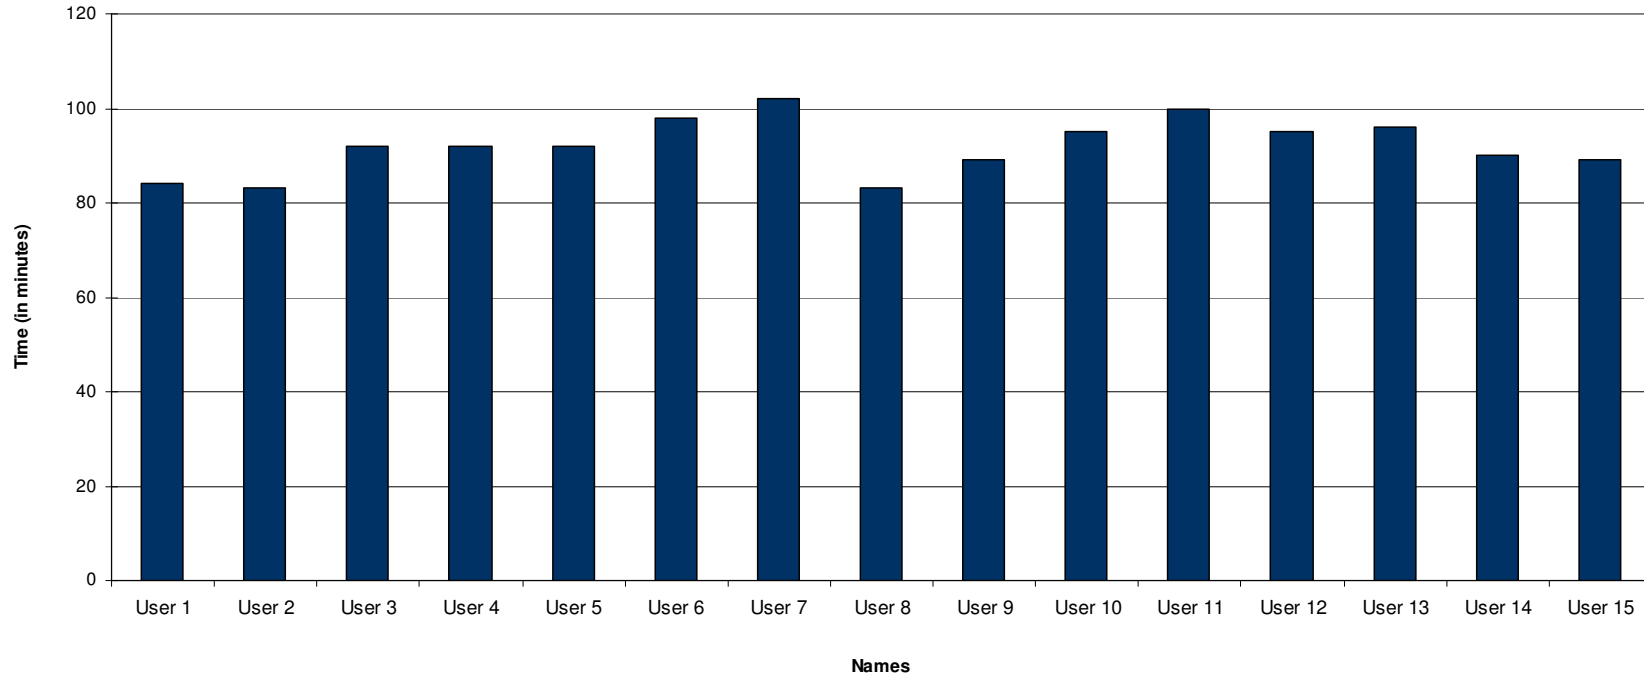

**All times are recorded in minutes*

Benefits

Provides an easy reference for individual and cohort time usage for the entire assessment.

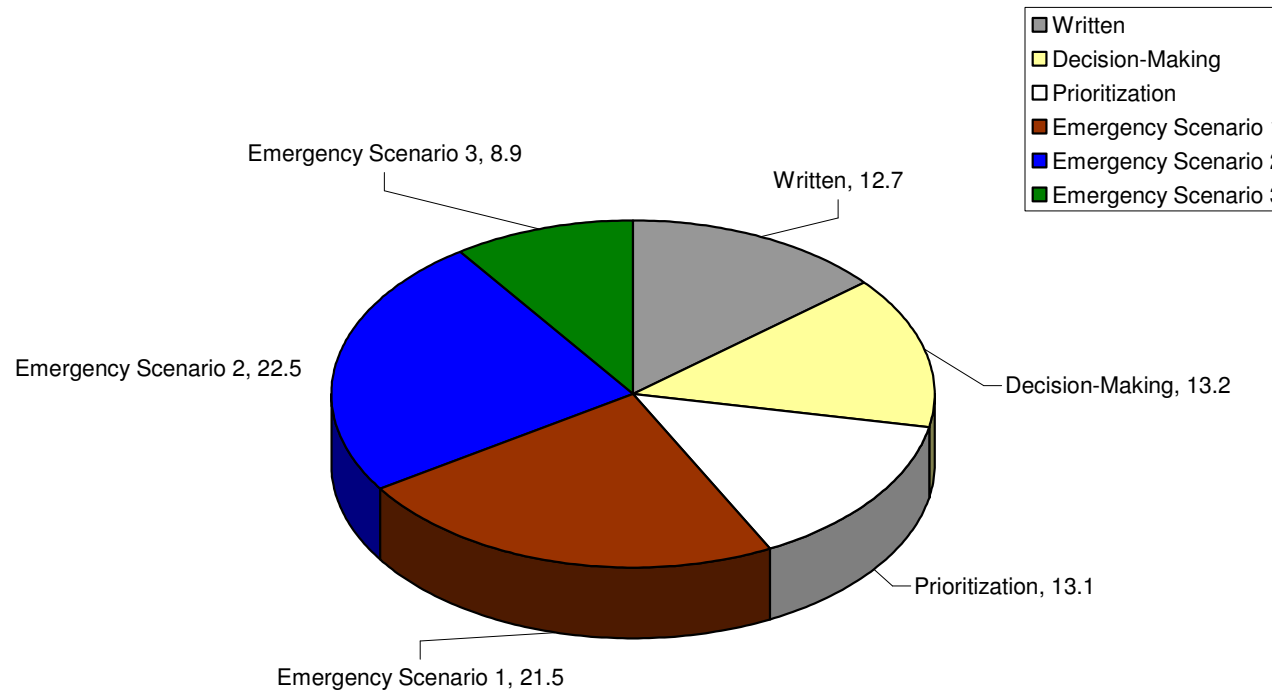

**Total Time to Complete:
Personal Results**

■ Total Time

Features	Benefits
<p>Get a closer look at individual time results for the entire assessment in one easy to read graph.</p>	<p>Provides at-a-glance individual time results while allowing for comparisons within the cohort.</p>

Group Time Averages by Section (in minutes)
Total Group Average = 92 min.

Features	Benefits
View the aggregate average time that your participants used to complete each section of the assessment.	Provides an easy to read reference for average time usage by your cohort.
